The Knowledge Portal is a web-based platform that serves as a central hub of information, data and reports on governance and natural resources in Mongolia. The portal was created by the Institute of Geography and Geoecology (IGG) and MERIT with funding from the Government of Canada.

INSTITUTE OF
GEOGRAPHY AND
GEOECOLOGY

The aim of the portal is to provide public servants and citizens with best-practices, current research and innovative ideas which have been adapted to the local context and accessible in Mongolian.
