

Knowledge Portal

The Knowledge Portal is a web-based platform that serves as a central hub of information, data and reports on governance and natural resources in Mongolia.

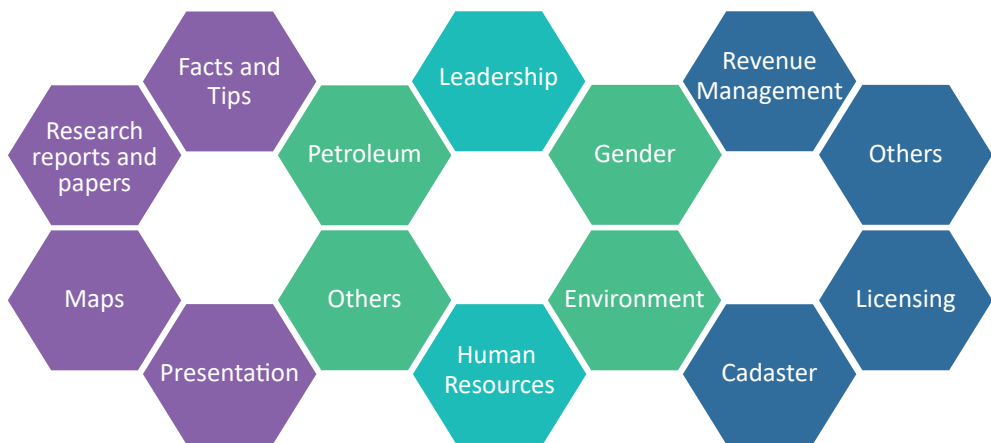

The aim of the portal is to provide public servants and citizens with best-practices, current research and innovative ideas which have been adapted to the local context and accessible in Mongolian. The portal was created by the Institute of Geography and Geoecology (IGG), MERIT, and SESMIM projects with funding from the Government of Canada. **To access the portals, go to the following links:**

portal.igg.ac.mn

portal.merit.mn

portal.sesmim.mn

Who is it for?

The knowledge portal is available for public use

What types of files are available?
